Take a closer look inside this low-prep, high-engagement literacy center!

Do you have students who finish early, need quiet engagement, or love to draw?

This bookmark center is a live saver during checkout time and transitions, AND it builds reading excitement, too!

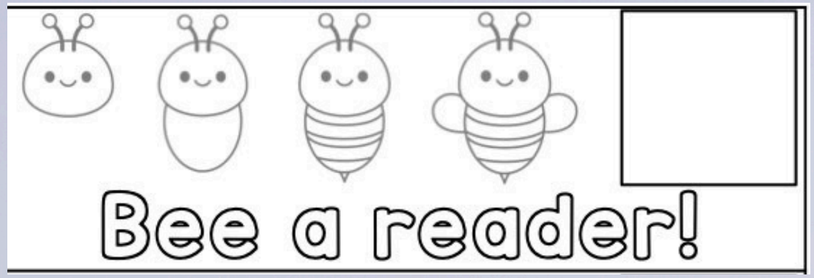

What's included?

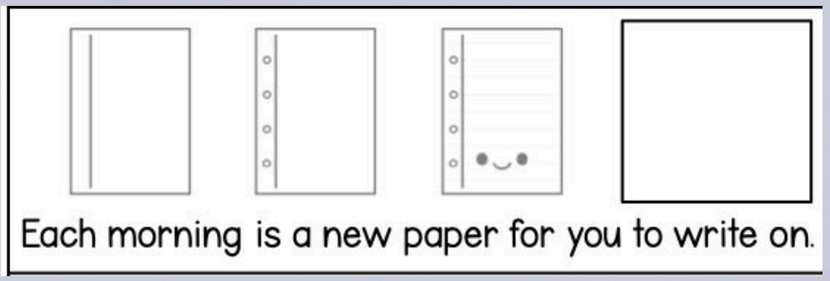

48 different bookmark designs to print, copy, and chop

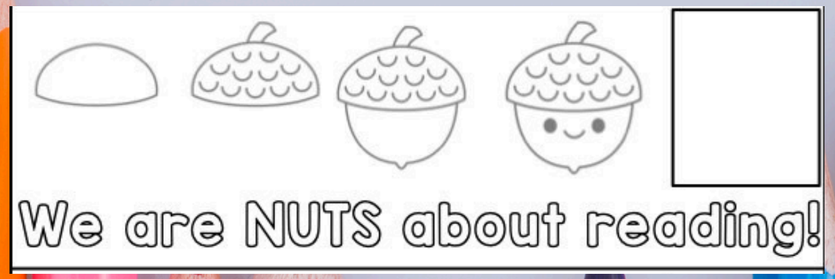

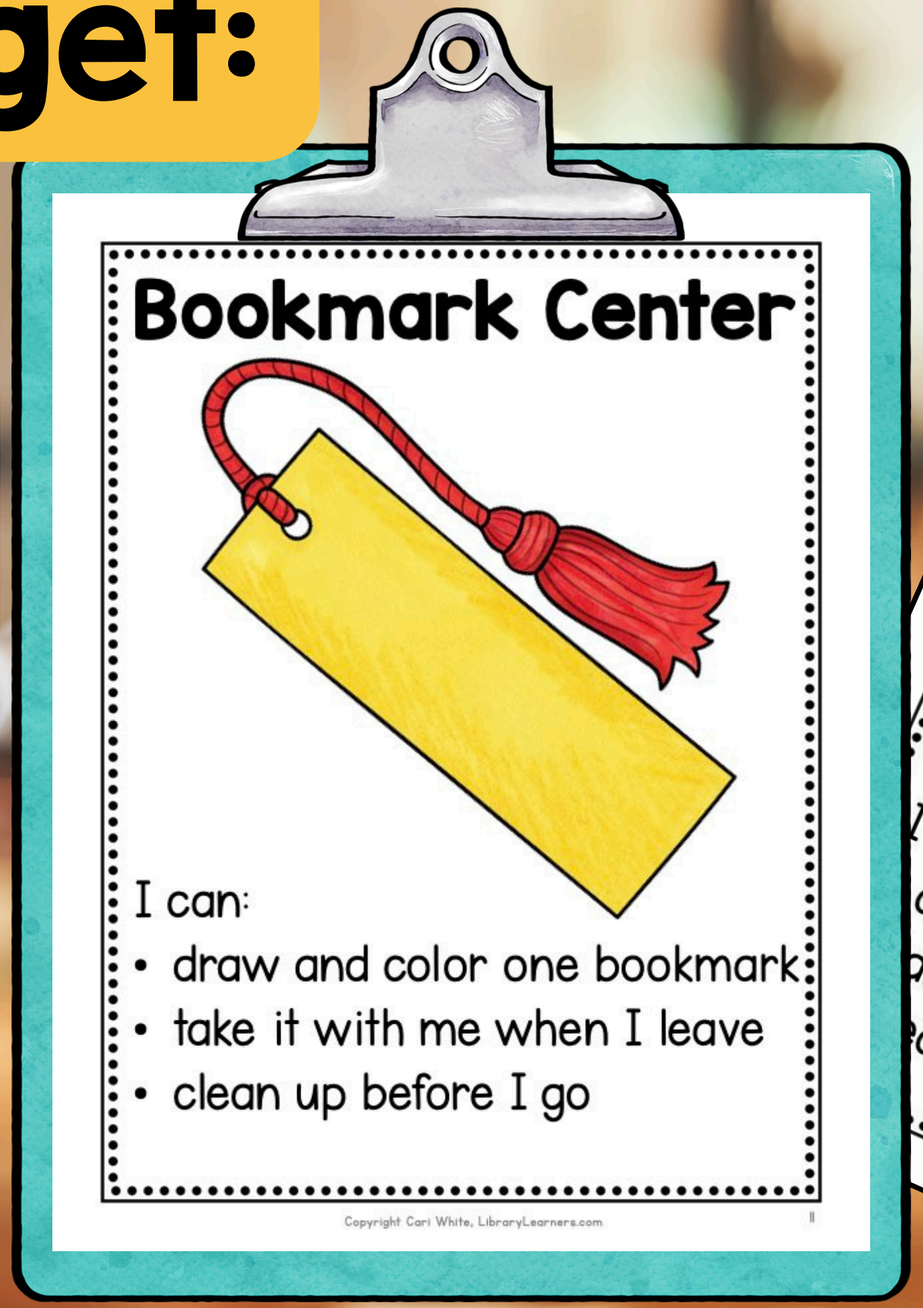

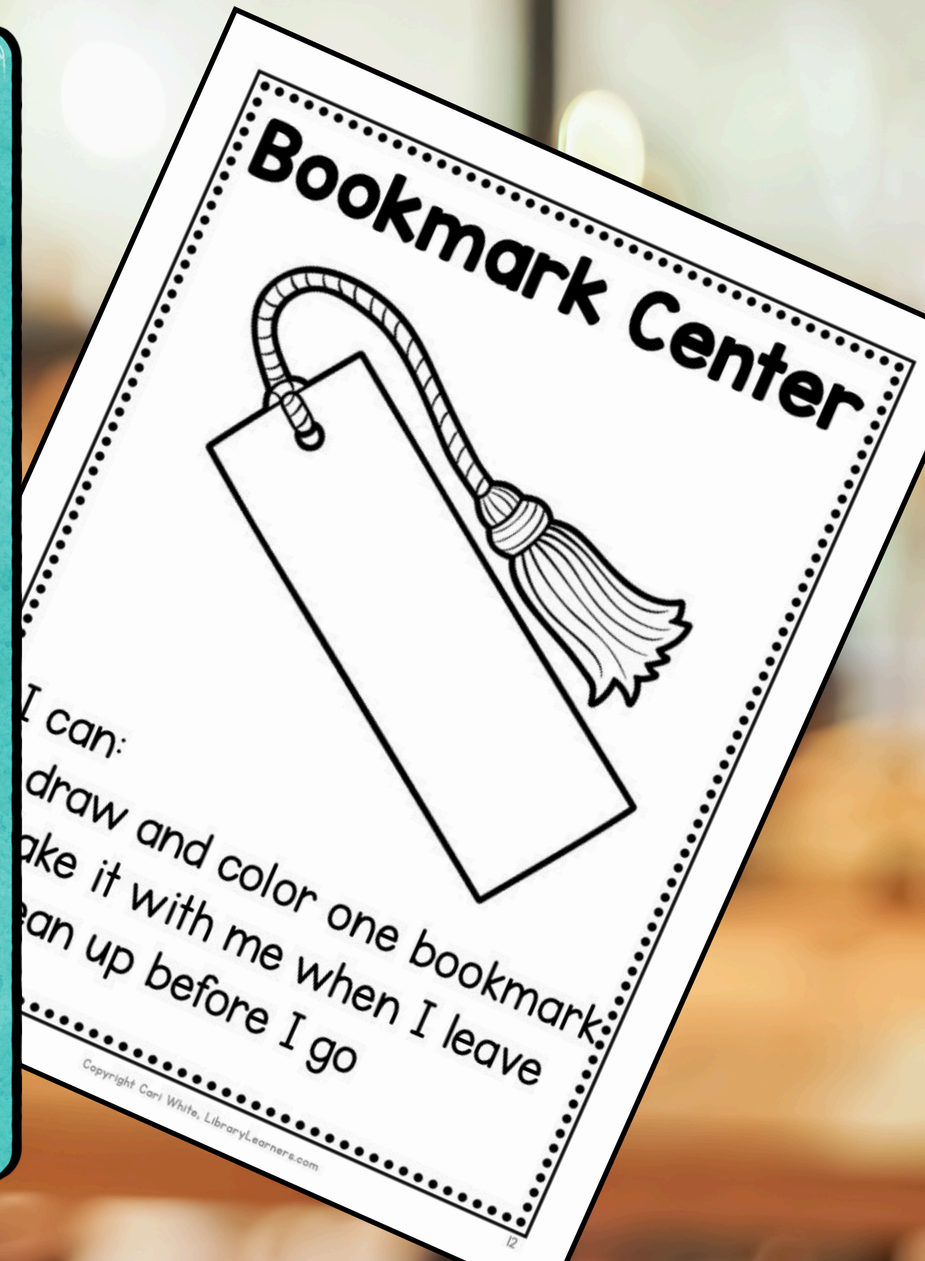

You also get:

A center sign, in color or black & white, so that students can work independently.

Why teachers & librarians keep coming back to this resource

⭐ Saves time with zero prep

🎨 Engages creative learners

📚 Encourages reading habits

✅ Easy for subs and independent stations

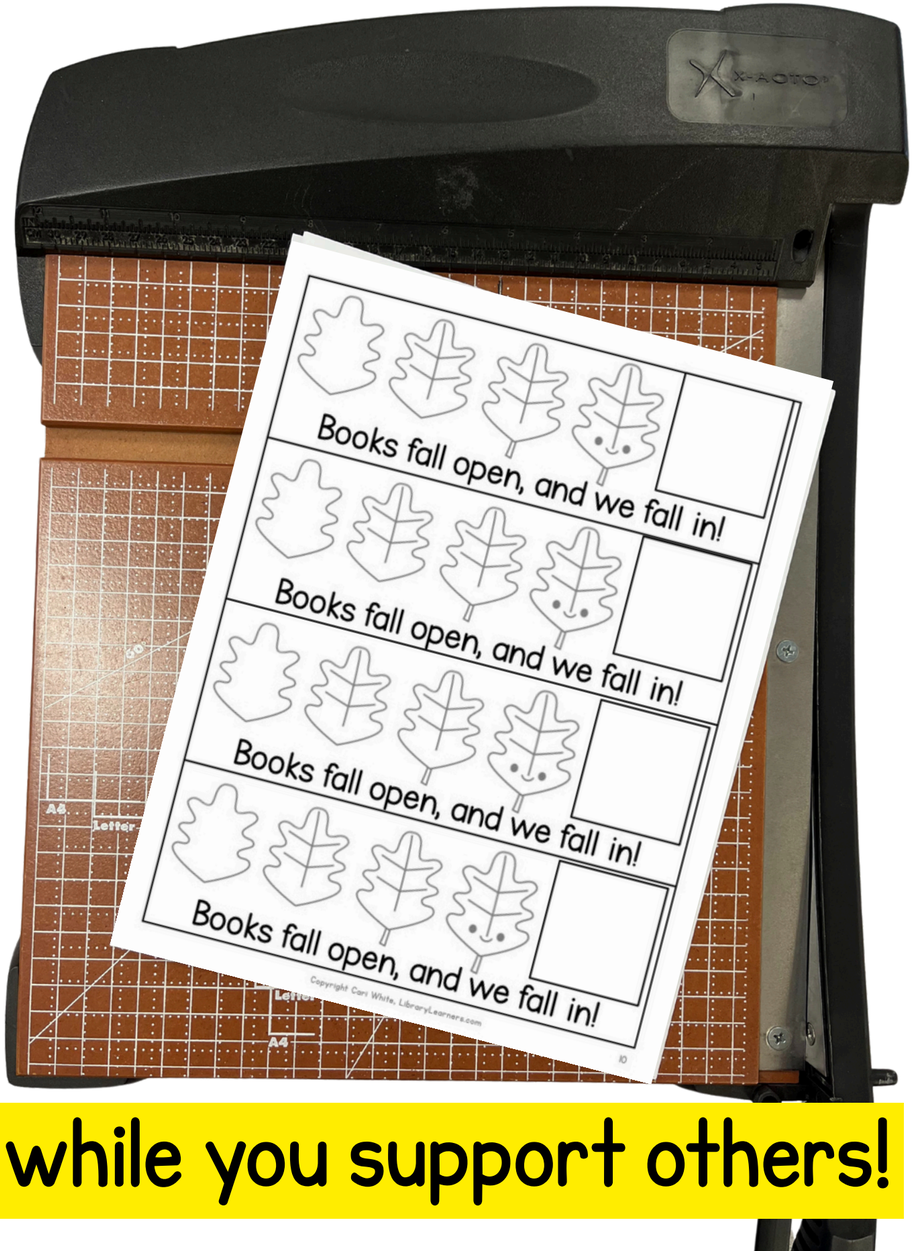

How It Works

1️⃣ Copy & chop the pages.

2️⃣ Set out crayons and pencils.

3️⃣ Students choose, draw, and color.

4️⃣ Take bookmarks home or use in their current reads!

Keeps students focused and engaged while you support others!

Teacher & Librarian Reviews

My students love directed drawings and to have them readily available as bookmarks is a bonus for them! I use them as a station in my media center and the students are so excited when they get to go to the station and create their own bookmark. Wonderful resource- I am very pleased.

★★★★★ **Extremely satisfied**

These are used in my bookmark center for students. I love adding these to the center because it gives the students and opportunity to draw and decorate their bookmarks.
